Agenda

01

Story Mapping

Understand RE through
a relatable daily routine

02

Identify & Discover

Roles & Perspectives

03

Get deeper insights

Experience systemic question
techniques to discover requirements

Let's do magic

EXPERIMENT: Getting ready for work

Close your eyes
to get on your journey

Let's exchange with your neighbours!

Compare your notes.

What differences did you identify
when comparing your mornings?

Story Mapping Example

What is the bare minimum that needs to be done?

Getting ready for work...

Influence on user tasks – Story Mapping

Focus on activities

Write down a verb for every single step done

Check Depth/Aggregation

Break down in smaller subtasks or sum up differences in behaviour

Order items

Narrative flow ☐
Getting an overview,
Identify missing tasks / hidden needs

Identify output

Identify the bare minimum MVP

WHO'S WHO

YOUR MORNING AS A PROJECT		
Everyday Role	Project Role	Function in the Example
Myself	Customer / PO	Has expectations: being on time, feeling good
My Planner	Requirements Engineer	Identifies dependencies & clarifies details
My Body	Developer	Implements the requirements
Environment	System / Stakeholder	Provides constraints (time, kids, weather)

What a User wants ≠ What a User really needs

Business Value?!

E.g. I don't want to feel stressed in the morning

...Might lead to misunderstanding in projects/at home

SYSTEMIC PRINCIPLES & MINDSET

EXPERT

The user knows its needs best

EYE LEVEL

Atmosphere & building rapport

WORD ANCHOR

Use the same wording

RESPECT

Consider all input with respect

EXPLORING

Avoid assumptions

FOCUS ON SOLUTION

Work into the future

INTERCONNECTEDNESS

Understand the whole system
around

PACING & LEADING

Questions show interest

SYSTEMIC QUESTIONS

A set of questions & techniques to focus on

WHAT FOR

- Ask Goal-oriented questions
- Be solution-focused
- Clarify previous strategies
- Draw explanatory metaphors
- Work with circular questions
- Identify external & internal resources
- Form perspective questions
- Ask for Exceptions
- Apply time/miracle question
- Use scaling questions

PRACTICAL TAKEAWAYS

REQUIREMENTS

Requirements are rarely clear-cut and rooted in everyday logic

COMMUNICATION

RE is not just about documentation, it's about communication

MULTIPLE LAYER

Communication has multiple layers

TRANSLATE

RE acts as translator, investigator, and structure-giver

HIDDEN NEEDS

Systemic questions reveal hidden needs

PROJECTS

Your morning shows how much 'project' lives in each of us
